Thanks. Any idea why she used the word "subpoena"? Isn't this a FOIA request?

Yes, they will accrue fees at the commercial rate. I will coordinate with Alyse and Brad about coming up with our estimated costs.

With broad requests such as this there is significant staff work required. I presume we will charge the law firm appropriate fees for this work?

Subject: FW: Supplemental Production Request (Interim Release, Request EPA-R7-2014-010810)

Hello All–

Last year we received FOIA 10810, a very broad request for West Lake. After initial discussion, the original requestor had indicated that she was especially interested in receiving the OU2 AR. We submitted that to her, and asked her to review the documents released and let us know what additional information she was still interested in receiving. She never responded indicating that she was interested in additional information; therefore the FOIA was considered satisfied with the initial AR response. The original request is attached.

Now, eight months later, supplemental information has been requested from another attorney at the law firm. It is clear from her email that they do not consider the matter closed. I have reached out to her to explain the context for our response, but have not heard back.

I have reopened FOIA 10810 and reassigned it to be processed.

Subject: Supplemental Production Request (Interim Release, Request EPA-R7-2014-010810)

Dear Ms. Albano:

Thank you for providing the documents linked below in response to our September 29, 2014, FOIA request pertaining to the Bridgeton Sanitary Landfill in Bridgeton, Missouri ("Bridgeton Landfill"), which is referred to on page viii of the Record of Decision, West Lake Landfill Site, Bridgeton, Missouri, Operable Unit 2, dated July 2008 and which was prepared by the U.S. Environmental Protection Agency, Region 7 (CERCLIS ID Number: MOD079900932).

It appears, however, that the documents produced all pertain to the EPA's July 2008 Record of Decision, and consequently, pre-date that decision. Our request sought documents dated through December 1, 2010, and we request that the EPA supplement its production to include documents dated through that date. In addition, our subpoena requested all communications relating to Bridgeton Landfill, which necessarily would include internal and external emails, but no emails were produced. We request that the EPA supplement its production to include email communications. Further, our subpoena requested routine reports, such as NSPS semi-annual reports, and we request that the EPA supplement its production to include such reports. As the deadline for the EPA to respond to our FOIA request has passed, we request supplementation as soon as possible.

Thank you,

Alice Aten

Subject: Interim Release, Request EPA-R7-2014-010810

EPA-R7-2014-010810 has been approved for an interim release.

Ms. Barrett,

The documents for the Administrative Record for OU2 have been made available here: [View Records](#). Because we believe that much of the information you are requesting is included in the AR, we are asking that you review those documents and then let us know what additional information you would like to receive.

Please let me know if you have any questions.

Sincerely,

Emily Albano
